

MINUTES OF MEETING DAY

FINAL PROJECT MEETING IN GERMANY

EUROPEAN CNC-NETWORK - TRAIN FOR EUROPE – DIGITAL REVOLUTION 4.0

Meeting Description	Final Project Meeting in Bad Kreuznach (Germany)
Meeting hosted by	BBS TGHS Bad Kreuznach
Minutes written by	[IE] John O'Neil

Date / Place / Time	Activities / Results / Points of importance
<p>PRESENTATION DAY Friday 05 May 2023</p> <p>BBS TGHS 09:30 Room 159</p> <p>School Canteen 11:30</p> <p>School Room 159 13:00</p>	<p>Good Morning Flashlight Friday started like previous days with our Good Morning Flashlight. Having had a “dry run” at the presentation on Thursday, the students were aware of the improvements they had to make to have a good presentation.</p> <p>Many students had worked on their part of the presentation overnight and this morning’s practice was a huge improvement on yesterday. There were still some technical issues to be sorted out and the students worked tirelessly to resolve them.</p> <p>Lunch by the Cook Trainees It was necessary to have an early lunch in order to be ready for the presentation at 13:00. The lunch was prepared by the 1st year Cookery trainees and served by the Hospitality students. The food was delicious and served with efficiency. At the end, the trainees were applauded by the visiting students and teachers, who appreciated their efforts.</p> <p>Presentation Arriving back to our project room we were met by a number of invitees from the school, industry, press and local government. After an informal “meet & greet” session it was time to present our project to the whole group and the visiting dignitaries.</p> <p>The coordinating teachers from BBS TGHS gave some background information about the CNC-Network, it’s history and journey up to now. This helped to set the current project in context and gave the students a starting point for their presentation.</p> <p>Then the students took over the presentation with a brief introduction by a steering group. After that, each delegation gave a summary of their school and country. The running order was, Norway, Germany, Lithuania, Croatia, Italy and Ireland. Then the technical group took the stage and explained the operational aspects of the project. This was received with enthusiasm and applause. The visiting dignitaries were obviously impressed with the work the students had done and how they had presented the project.</p> <p>After the formal presentation there was again time for students, teachers and guests to mingle and chat informally. It was an opportunity for the guests to take a closer look at the project work and ask specific questions of the students.</p>

Date / Place / Time	Activities / Results / Points of importance
15:00	<p>Review, Evaluation and Clean-up</p> <p>There was a palpable sense of pride and relief among the students and teachers that the presentation had gone so well. Then it was time to decommission the projects and pack them for transportation back home. When they are returned to the six participating schools, they will be set up as permanent displays. The website from which the wagon animations and webcam are operated will be available to anyone who wishes to use it.</p>
19:00	<p>Happy End Dinner at “Gasthaus Krone”</p> <p>When we assembled at the restaurant everyone was in high spirits as a result of their achievements. The menu was extensive, the food was great and the service was friendly. In the end all were tired but happy that the day had gone so well.</p>
