

MINUTE OF MEETING DAY

THIRD PROJECT MEETING IN CROATIA

EUROPEAN CNC-NETWORK -

TRAIN FOR EUROPE – DIGITAL REVOLUTION 4.0

Meeting Description	Third Project Meeting in Zagreb (Croatia)
Meeting hosted by	I. tehnicka skola Tesla
Minute written by	[IE] Ben Veldhoen

Date / Place / Time	Activities / Results / Points of importance
<p>WORK CLOSURE DAY Wednesday 04 May 2022</p>	<p>We started the day off with another good morning flashlight at 9:00 and went straight into Workline A at 9:30. This Workline is concerned with the Interaction aspects of the project i.e. how the people interact with the hardware via the software and how the train carriages interact with one another. A welcome coffee break came at 10:45.</p> <p>At 11:00 we went into Workline B discussion. This is to do with the specialized topic of Networking. Not all partner schools have advanced IT departments, so we relay a lot on the schools that do to make these meetings work. After Workline B we went to have lunch at the school at 12:15.</p> <p>At 13:30 we went into Workline C which is about media. Another coffee break followed at 15:00. At 15:30 we went into the last Workline of the day Workline D. We discussed what further steps should be taken. Then we had the evaluation and an outline of the homework to be done for the next meeting.</p> <p>At 20:00 we had a farewell dinner for T4EU-REV which was also a welcome dinner for the Magical Moving Machine students and teachers. It was time to say goodbye to the T4EU-REV students and teachers before the second project moved to Slovenia. Thanks to the teachers and students from Prva Tehnicka Skola Tesla for a perfectly organized meeting.</p> <div data-bbox="620 1279 1323 1800" data-label="Image"> </div>
