

MINUTE OF MEETING DAY

FIRST PROJECT MEETING IN TRONDHEIM

EUROPEAN CNC-NETWORK - TRAIN FOR EUROPE - DIGITAL REVOLUTION 4.0

Meeting Description	First Project Meeting in Trondheim [NO]
Meeting hosted by	Byåsen Videregående Skole
Minute written by	[DE] Heinz Wildgrube

Date / Place / Time	Activities / Results / Points of importance
<p>Thursday 18th November 2021 INITIAL & SIGHTSEEING DAY</p>	<p>After having had breakfast in the hotel, we all took the train to school where we then had our first meeting in the huge and beautiful auditorium. Heinz and Martin gave us an insight into what is expected to happen and be done in this meeting in NO and an overview to the project in a whole.</p> <p>We started off by organizing ourselves in worklines and workgroups so that every member of a delegation would then be in one workgroup and each school would then be represented in each field of work.</p> <p>For lunch, we were invited to the school restaurant where we had lunch together and enjoyed the home-made specialities that had been prepared by the Norwegian students from the hotel and gastronomy department.</p> <p>After lunch we again were meeting in the auditorium to have a closer look at the personal organisation, the different workgroups and their tasks – just to make sure that everything is in order and to be well prepared for the coming days.</p> <p>In the afternoon we took the train back to downtown Trondheim and had a guided city tour – it was cold, it was rainy and it was soon getting dark. On the one hand, it was really hard for some of us who had not expected that icy wind especially on the ship when passing the fjord, but it was a beautiful experience in view to getting to know climate conditions in the north of Europe.</p> <p>For dinner then we split into several groups and had dinner in different places. Some of us again were meeting in the lobby afterwards, others directly went to bed after a perfect kicking-off day!</p>
